Trust The Water Experts®

Culligan Soft-Minder® Twin

A Continuous Supply Of Soft Water

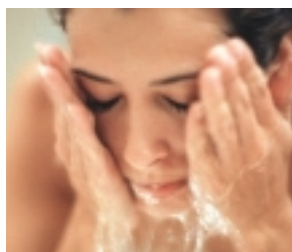

Many Reasons For Soft Water!

Cleaner, Brighter Laundry

Easier Cleaning

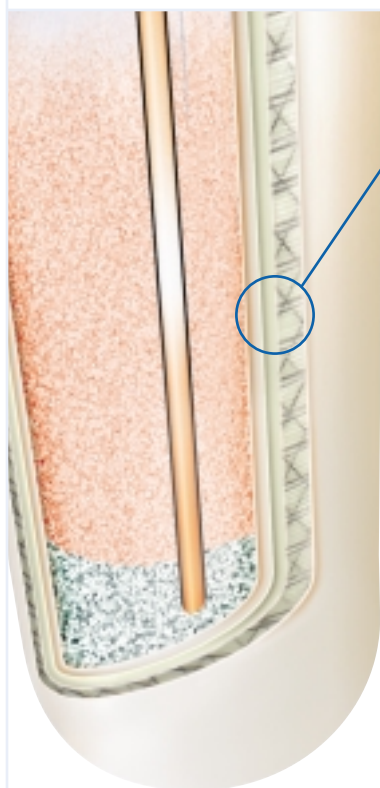

Smoother, Softer Skin

Spot Free Glassware

The Culligan Soft-Minder® Twin provides uninterrupted conditioned water, 24-hours-a-day. Two independent mineral tanks provide a continuous flow of soft water; when one tank is exhausted, the second tank takes over while the first regenerates. The *Soft-Minder* Twin is available in various sizes to accommodate many soft water needs, including large families, extremely hard water problems or even light commercial use.

Culligan Exclusive Quadra-Hull™ Tank With Limited Lifetime Warranty

Designed to provide the highest protection in the industry, our exclusive Quadra-Hull™ tank has four layers of construction.

- ▶ **The Culligan Soft-Minder® Meter**
 A water meter monitors daily water use and regenerates only when necessary, saving salt and water.
- ▶ **Five-Cycle Motorized Control Valve**
 Reliable motor driven pistons direct water flow during service and regeneration cycles.
- ▶ **Cullex® Resin**
 A long-lasting softening resin delivers stability and uniformity to assure maximum capacity and flow.
- ▶ **Softener Brine Tank**
 Features a *Dubl-Safe™* brine refill control for assured shut-off, and corrosion-proof components for long life.
- ▶ **Bypass Valve**
 Allows you to manually bypass the system for uses not requiring softened water—such as watering the lawn.
